

Periodic Awareness Slides

- In 2007 the laboratory formed a Diversity Advisory Committee (DAC) with the following charge: “The DAC will be a standing committee that will advise the director how to improve the diversity of the NSCL workforce and how to make the NSCL work-environment welcoming and inclusive.”
- One recent initiative of the DAC is to develop one-sliders on a variety of work-environment related topics.
- These one-sliders will be presented at department, faculty, post-doc, and graduate student meetings.
- The goal of these slides is to raise awareness about these topic
- Any suggestions and comments should be communicated to a member of the DAC:
Lindsay Dubbs, Chasity Fudella, Mandie Gehring, Don Lawton, Daniela Leitner, Anna Simon, Michael Thoennesen (Chair)
