

VISITORS IN 1997

Billy Ables (Texas Instruments)
Nemital Added (University of São Paulo)
Dileep Agnihotri (University of Rochester)
Fay Ajzenberg-Selove
Hidetoshi Akimune (RCNP, Osaka University)
Sebastiano Albergo (Catania)
Kjell Aleklett (Uppsala University, Sweden)
Glen Allbritton (CalTech)
Juha Arje (University of Jyväskylä)
Leif Axelsson (Chalmers University, Sweden)
David Balamuth (University of Pennsylvania)
Vladimir Balandin (Inst. for Nuclear Research of
the Russian Acad. of Sciences, Moscow)
John Batchelder (Oak Ridge Associated
Universities)
Oleg Batenkov (Khlopin Radium Inst., St.
Petersburg)
Carine Beauvais (University of Orsay)
Fred Becchetti (University of Michigan)
John Becker (Lawrence Livermore National
Laboratory)
David Becker (Oakland University)
Jim Beene (Oak Ridge National Laboratory)
S.N. Behera (Institute of Physics, Bhubaneswar,
India)
Simon Bennett (Wayne State University)
Georg Berg (Indiana University Cyclotron
Facility)
Carlos Bertulani (Universidade Federal do Rio de
Janeiro)
Chris Bischof (Argonne National Lab)
Yorick Blumenfeld (IPN Orsay)
Catalin Borcea (Institute for Atomic Physics,
Bucharest)
Alexander Botvina (Institute for Nuclear
Research, Russia)
Richard Boyd (Ohio State University)
Sytze Brandenburg (KVI)
Jim Brown (Allegheny College)
Judith Bush (University of Pennsylvania)
Michael Callaghan (Oakland University)
Nelson Carlin (University of São Paulo)
Bob Charity (Washington University)
Paul Chin (University of Maryland)
Philippe Chomaz (GANIL)
Eric Christian (Goddard Space Flight Center,
MD)
Marcus Chromik (Ludwig Maximilian University)
Arthur Cole (Ohio State University)
Walter Cook (CalTech)
Paul Cottle (Florida State University)
Joseph Cugnon (University of Liege)
Alan Cummings (CalTech)
Izuro Daito (RCNP, Osaka University)
Steve Danczyk (Texas A&M University)
Ferenc Deák (Eötvös Lorand University,
Hungary)
Jim Dempsey (Washington University)
David d'Enterria (GANIL)
Paul DeYoung (Hope College)
Ben Djerroud (University of Rochester)
Zdenek Dlouhy (Nuclear Physics Institute, Rez,
Czech Republic)
Thomas Døssing (Niels Bohr Institute)
Brian Dougherty (Jet Propulsion Lab)
Katie Drake (Hope College)
John Dunn (Oregon State University)
Jürgen Eberth (University of Cologne)
B.G. Erozolimsky (Kurchatov/Gatchina)
Henning Esbensen (Argonne National
Laboratory)
Michael Fauerbach (Florida State University)
Valentin Fekou-Youmbi (Oregon State
University)
Joe Finck (Central Michigan University)
Bernhard Franzke (GSI)
Albert Frasca (Wittenberg University, Ohio)
William Friedman (University of Wisconsin)
Hisako Fujimura (RCNP, Osaka University)
Yoshi Fujita (Osaka University)
Mamoru Fujiwara (RCNP, Osaka University)
Carl Gagliardi (Texas A&M)
Ning Gan (Oak Ridge National Laboratory)
Alejandro Garcia (University of Notre Dame)
Joachim Goerres (University of Notre Dame)
Pol-Bernard Gossiaux (Nantes)
Akira Goto (Cyclotron Laboratory, RIKEN)
Oleg Grachov (Wayne State University)
Gene Grimm (Westmont College, Santa Barbara)
Valdir Guimares (University of Notre Dame)
Taygun Guray (Ohio State University)
Mel Halbert (Oak Ridge National Laboratory)
Dean Halderson (Western Michigan University)
Damian Handzy (Deloitte & Touche)
Muhsin Harakeh (KVI, Groningen)
Dieter Hartmann (Clemson University)
Christoph Hartnack (University of Nantes)
Lawrence Heilbronn (Lawrence Berkeley
Laboratory)
Ulrich Heinz (University of Regensburg)
Maggie Hellström (GSI)
Yoshihide Higurashi (Rikkyo University)
Jerry Hinnefeld (Indiana University at South
Bend)

Ákos Horváth (Eötvös Lorand Univ, Hungary)
 Susanta Hui (Nuclear Science Centre, Delhi)
 Kazuo Ieki (Rikkyo University)
 Yoshiyuki Iwata (Rikkyo University)
 Etienne Jacobs (University of Ghent)
 Joachim Janecke (University of Michigan)
 Branislav Kecman (CalTech)
 Kirby Kemper (Florida State University)
 Elias Khan (IPN Orsay)
 Ádám Kiss (Eötvös Lorand University, Hungary)
 Jason Kleeh (Allegheny College)
 Jörn Knoll (GSI)
 Jim Kolata (University of Notre Dame)
 Alexander Komives (University of Notre Dame)
 David Kostecke (University of Rochester)
 Wai Kwok (Argonne National Laboratory)
 Stefan Leenhardt (IPN, Orsay)
 Richard Leske (CalTech)
 T.A. Lewis (Oak Ridge National Laboratory)
 Marek Lewitowicz (GANIL, Caen)
 J. Liang (Oak Ridge National Laboratory)
 Andrzej Lipski (SUNY, Stony Brook)
 Benoit Lott (GANIL)
 Walter Loveland (Oregon State University)
 Y.X. Luo (Inst. of Modern Physics at Chinese
 Acad. of Sciences, Lanzhou, China)
 John Madey (Duke University)
 Gines Martinez (GANIL)
 Brian McDonald (Georgia Tech)
 Steven Mellema (Gustavus Adolphus College)
 Francois Meot (LN Saturne/Fermilab)
 Andrea Messer (Oakland University)
 Meredith Metzler (Kalamazoo College)
 Richard Mewaldt (CalTech)
 John Millener (Brookhaven National Laboratory)
 Bruce Milton (TRIUMF)
 Marcia Moura (University of São Paulo)
 Christian Muentz (Brookhaven National
 Laboratory)
 Ivan Mukha (University of Aarhus)
 Bhaskar Mukherjee (Royal Prince Alfred Hospital
 at Sydney University)
 Gottfried Münzenberg (GSI)
 Alex Murphy (Ohio State University)
 Takahide Nakagawa (RIKEN)
 Tapan Nayak (Variable Energy Cyclotron Centre,
 Calcutta)
 Florin Negoita (Institute for Atomic Physics,
 Bucharest)
 Anja Noebert (Argonne National Laboratory)
 Jerry Nolen (Argonne National Laboratory)
 Ed Norbeck (University of Iowa)
 Walter Ölert (Jülich)
 Robert Olsson (Argonne National Laboratory)
 Erich Ormand (Louisiana State University)

Toshitaka Otsuka (University of Tokyo)
 Ernst Otten (University of Mainz)
 Robert B. Palmer (Brookhaven National
 Laboratory)
 Yang Pang (Columbia University)
 Peter Paul (Stony Brook)
 Lisa Paulius (Western Michigan University)
 Graham Peaslee (Hope College)
 Declan Permsram (McGill University)
 Andra Petrean (Western Michigan University)
 Marek Pfützner (Cracow University)
 Andreas Piechaczek (Louisiana State University)
 Marak Ploszajczak (GANIL)
 David Radford (Oak Ridge National Laboratory)
 Robert Radocinski (Jet Propulsion Lab)
 Gerry Raimann (Ohio State University)
 Ranjan Ray (St. Xavier's College in Calcutta)
 Charles Recchia (Wittenberg University, Ohio)
 K.E. Rehm (Argonne National Laboratory)
 Scott Riley (Westmont College, Santa Barbara)
 Dirk Rischke (Duke University)
 Don Roberts (University of Michigan)
 Warren Rogers (Westmont College, Santa
 Barbara)
 Stephen Sanders (University of Kansas)
 Peter Santi (University of Notre Dame)
 Jean Antoine Scarpaci (IPN Orsay)
 Hendrik Schatz (University of Notre Dame)
 Hugo Schelin (Federal Center for Technical
 Education, Curitiba)
 Christof Schneider (Rossendorf)
 Udo Schroeder (University of Rochester)
 Zoltán Seres (Central Research Institute,
 Hungary)
 Andy Sessler (Lawrence Berkeley National
 Laboratory)
 Michael Sevilla (Oakland University)
 Dan Shapira (Oak Ridge National Laboratory)
 Nathan Shaw (Stony Brook)
 Jim Sheckard (Oberlin College)
 John D. Shepherd (University of Wisconsin at
 River Falls)
 Edward Shuryak (Stony Brook)
 Wojtek Skulski (University of Rochester)
 Lee Sobotka (Washington University)
 Sven Sof (Frankfurt)
 Olivier Sorlin (IPN, Orsay)
 George Souliotis (Institute for Nuclear Physics,
 Athens, Greece)
 William J. Stapor (Innovative Concepts Inc.,
 McLean, VA)
 John Stasko (Ford)
 Horst Stöcker (Frankfurt)
 Irena Stone (Oxford University)
 Nick Stone (Oxford University)

Alexandre Suaide (University of São Paulo)
Kruno Subotic (Institute for Nuclear Science,
Belgrade)
Tiina Suomijarvi (IPN, Orsay)
Eugene Surdutovich (Wayne State University)
Alex Szanto de Toledo (University of São Paulo)
Satoshi Takeuchi (Rikkyo University)
Michael Thayer (CalTech)
Peter Thierolf (University of Munich)
Harsha Thirumurthy (Oberlin College)
Paul Tischhauser (University of Notre Dame)
Jan Toke (University of Rochester)
Dave Underwood (Argonne National Laboratory)
Ad M. van den Berg (KVI, Groningen)
Jon Vandegriff (Ohio State University)
Robert Varner (Oak Ridge National Laboratory)
S. Venkataramanan (Nuclear Science Centre,
Delhi, India)
Raju Venugopalan (Niels Bohr Institute)

Tycho von Rosenvinge (Goddard Space Flight
Center, MD)
William Walters (University of Maryland)
J.G. Wang (University of Maryland)
Robert Warner (Oberlin College)
Mark Wiedenbeck (Jet Propulsion Lab)
Michael Wiescher (University of Notre Dame)
Hobson Wildenthal (University of Texas at
Dallas)
Jeff Winger (Mississippi State University)
Gyuri Wolf (GSI)
Hermann Wollnik (University of Giessen)
Jim Woodroffe (Oberlin College)
Alan Wuosmaa (Argonne National Laboratory)
Linbo Yang (University of Iowa)
Ed Zganjar (Louisiana State University)
Malgorzata Zielinska-Pfabe (Smith College)
Peter Ziem (Hahn-Meitner-Institut, Berlin)
Lissa Zyromski (Oregon State University)
