

MSU THESIS TITLES IN 1999

“Disassociation of the ^{11}Li Nucleus,” Jon Kruse

“The Electromagnetic Excitation of ^6He and Neutron Cross-Talk in a Multiple-Detector System,” Jing Wang

“Spectroscopy of Exotic Nuclei with the S800 Spectrograph,” Jac Caggiano

“New Elements of Analysis on the Levi-Civita Field,” Khodr Shamseddine

“Experimental Study of an Ion Cyclotron Resonance Accelerator,” Chris Ramsell

THESES AT OTHER UNIVERSITIES BASED IN PART ON EXPERIMENTS AT THE NSCL

“Fusion Enhancement with Neutron-Rich Radioactive Beams,” Lissa Zyromski (Oregon State University)

“Low-Lying Collective Excitations in $^{18}\text{F}_{\text{g.s.}}$ and $^{18}\text{F}_{\text{m}}$ Studied via Intermediate-Energy Coulomb Excitation,”
James Zimmerman (University of Michigan)
