

## VISITORS IN 2000

Jim Al-Khalili (University of Surrey)  
Naftali Auerbach (Tel Aviv University)  
Byran Barmore (Oak Ridge National Laboratory)  
John Becker (Lawrence Livermore National Laboratory)  
Jose Benlliure (University of Santiago del Compostella)  
Boris Bondarev (Moscow Radiotechnical Institute)  
David Brink (University of Oxford)  
David Brown (Institute for Nuclear Theory at the University of Washington)  
Robert Cadman (University of Illinois at Urbana)  
Pavel Cejnar (Charles University, Prague)  
Marcus Chromik (University of Munich)  
Maria Colonna (LNS, Catania)  
Rita Colwell (Director of the National Science Foundation)  
George Corliss (Marquette University)  
John D'Auria (Simon Fraser University)  
Yi Dai (Queen's University, Canada)  
J.J. Das (Nuclear Science Centre in New Delhi)  
Diego Dolci (Rio de Janeiro)  
Alexander Durkin (Moscow Radiotechnical Institute)  
Oliver Engels (Ludwig-Maximilians-University in Munich)  
Victor Flambaum (University of New South Wales)  
Christoph Fransen (University of Cologne)  
William Friedman (University of Wisconsin)  
Rao Ganni (Jefferson Laboratory)  
Donald Geesaman (Argonne National Laboratory)  
Tim Hallman (Brookhaven National Laboratory)  
Wick Haxton (University of Washington)  
Zhong He (University of Michigan)  
Michael Ibrahim (Yale)  
Yoshiyuki Iwata (Rikkyo University)  
Felix Izrailev (University Autonoma de Puebla)  
M.S. Jogad (Sharanabasaveshwar College of Science, Gulbarga, Karnataka, India)  
Carol Johnstone (Fermilab)  
Steven Karataglidis (Los Alamos National Laboratory)  
Baker Kearfott (Louisiana)  
Jim Kolata (Notre Dame)  
Shawn Kolitch (University of Oregon)  
Evgeni Kolomeitsev (GSI)  
K.-L. Kratz (University of Mainz)  
Dimitri Kusnezov (Yale University)  
Karlheinz Langanke (University of Aarhus, Denmark)  
Alexei Larionov (University of Giessen).  
Thomas Lefort (Indiana University Cyclotron Facility)  
Alinka L epine-Szily (Physics Institute of the University of S ao Paulo)  
Bao-An Li (Arkansas State University)  
Pavel Lipavsky (Academy of Sciences, Prague)  
A. Makhlin (Wayne State University)  
Rudi Malfliet (KVI, Groningen)

Gabriel Martinez-Pinedo (Aarhus University)  
Jie Meng (Peking University)  
Richard Milner (MIT)  
Denes Molnar (Columbia University)  
Colin Morton (University of Toronto)  
Akram Mukhamedzhanov (Texas A&M University)  
Witold Nazarewicz (University of Tennessee)  
Ned Nedialkov (McMaster)  
Peter Ostroumov (Argonne National Laboratory)  
Hasan Padamsee (Cornell University)  
Kerstin Paech (University of Frankfurt)  
Carlo Pagani (University of Milan)  
Shelley Page (University of Manitoba)  
Paul Pancella (Western Michigan University)  
Todd Peterson (Indiana University)  
Bernd Pfeiffer (University of Mainz)  
Steven Pieper (Argonne National Laboratory)  
John Pryce (Royal Military College, Swindon, UK).  
Werner Richter (University of Stellenbosch, S. Africa)  
Mark Riley (Florida State University)  
Warren Robertson (Sulzer)Michael Saltmarsh (Oak Ridge National Laboratory)  
C. Samanta (Saha Inst. of Nuclear Physics in Calcutta)  
Peter Santi (University of Notre Dame)  
Stefan Scherer (University of Frankfurt)  
Shalom Shlomo (Texas A&M)  
Radhey Shyam (Saha Institute of Nuclear Physics)  
Stefan Simrock (DESY)  
Alexander Skrinksky (Budker Institute of Nuclear Physics, Novosibirsk)  
Jim Solwinsky (Indiana)  
Gene Sprouse (SUNY Stony Brook)  
Horst Stöcker (University of Frankfurt)  
Andrew Stuchbery (Australian National University)  
T. James Symons (Lawrence Berkeley National Laboratory)  
Oleg Tarasov (Joint Institute for Nuclear Research, Dubna)  
Derek Teaney (SUNY at Stony Brook)  
Ian Thompson (Surrey)  
Jeff Tostevin (University of Surrey)  
Dave Van Domelen (Ohio State University)  
Stephen Vance (Brookhaven National Laboratory)  
Stanislav Vinogradov (Moscow Radiotechnical Institute)  
Tom Wangler (Los Alamos National Laboratory)  
Hermann Wollnik (University of Giessen)  
Bin Zhang (Texas A&M)  
Frank Zimmermann (CERN)
